 www.spartanchemical.com

FASTER KNOCKDOWN:

Wasp & Hornet Killer provides quicker, faster knockdown and kill of wasps, hornets, and yellow jackets.

RESIDUAL CHARACTERISTIC:

Wasp & Hornet Killer's residual properties kill insects returning to the treated nest

20-FOOT SPRAY PATTERN:

Wasp & Hornet Killer provides a spray pattern of more than 20 feet.

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For Control of Nests of Wasps, Yellow Jackets, and Hornets: The best time to spray the nest is in the early morning or early evening, when air temperature is cooler and most insects are in the nest and little activity is observed around the nest opening. Spray only if the air is still. Stand at a safe distance from the nest, not directly under it. Hold container upright at arms length, point the actuator at the nest and spray in the opening of the nest first. Then spray the rest of the nest until it is saturated. Treated insects may fall out of the nest and die. Any insects returning to the nest after treatment will be killed. Wait 48 hours before removing the nest. Foliage of desirable plants that were contacted with spray should be hosed off.

This product may stain or adversely affect vinyl, painted, and plastic surfaces. Avoid application to asphalt roofing shingles as staining may occur. Before using in areas where spray may contact these surfaces, test in an inconspicuous area and recheck in a few hours.

USES:

This product can be used both indoors (attics and other places where nests are built and where food or feed are not exposed) and outdoors on Wasp, Hornet, and Yellow Jacket nests.

- Kills Wasps, Yellow Jackets, and Hornets on contact
- Gives rapid knockdown and kill of Wasps, Yellow Jackets, and Hornets
- Gives rapid contact kill and residual kill of insects returning to the treated nest
- Reaches nests more than 20 feet above ground
- Dielectric Breakdown Voltage: 41.0 kV by ASTM Test Method D-877-87

ACTIVE INGREDIENTS:

Tetramethrin [(1-Cyclohexene-1,2-dicarboximido) methyl 2,2-dimethyl -3(2-methylpropenyl cyclopropanecarboxylate.....0.200%
 3-Phenoxybenzyl-(1RS, 3RS; 1RS,3SR)- 2,2-dimethyl-3-(2-methylprop-1-enyl) cyclopropanecarboxylate.....0.125%
 *OTHER INGREDIENTS:99.675%
 100.000%

F-6™

flying insect killer

A combination of two powerful, synthetic pyrethroid compounds, F-6 Flying Insect Killer quickly kills flying insects. Recommended for use in schools, office buildings, institutions, hotels, motels, factories, and manufacturing facilities.

Providing Quality Maintenance and Chemical Specialty Solutions with Unparalleled Customer Service

Spartan Chemical Company, Inc.
 1110 Spartan Drive
 Maumee, OH 43537
 1-800-537-8990
 www.spartanchemical.com

FAST AND EFFECTIVE:

Advances in the area of synthetic pyrethrins, has created pyrethroid formulations which are extremely effective. F-6 Flying Insect Killer contains Tetramethrin which literally paralyzes or immobilizes flying insects.

REGISTERED WITH THE EPA:

F-6 Flying Insect Killer is registered with the Environmental Protection Agency for use in those areas indicated on product labeling.

(EPA Reg. No. 706-83-5741, EPA Est. No. 706-IL-1).

PLEASANT AND EASY TO USE:

The F-6 Flying Insect Killer aerosol dispensing system assures fine particle size which allows prolonged suspension of active ingredients and provides quick knockdown of flying pests.

ECONOMICAL:

The quality and high percentage of active ingredients in F-6 Flying Insect Killer insures economical use through reduction in the number of applications needed to kill and control flying insects.

For Use In Non-Food Areas Of Commercial, Industrial And Institutional Buildings And In Households

ACTIVE INGREDIENTS:

Tetramethrin

[(1-cyclohexene-1,2-dicarboximide)
 methyl 2,2-dimethyl 3-(2-methylpropenyl
 cyclopropanecarboxylate)0.200%
 Phenothrin 0.200%

OTHER INGREDIENTS: 99.600%

†Contains Petroleum Distillates.

For use in non-food areas of commercial, industrial and institutional building and in households

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not use in commercial food processing, preparation or storage areas.

Shake Before Use, Hold Container Upright. Apply In Short Bursts.

To Kill Flies, Mosquitoes, Small Flying Moths and Gnats: Close all doors and windows, and direct spray upward into center of room with a slow sweeping motion. Spray 5-10 seconds for average room. Keep room closed for 15 minutes after spraying. Ventilate room thoroughly before re-entry. Sweep up and discard fallen insects.

Storage: Store in a cool, dry place (preferably locked) inaccessible to children and pets and away from direct sunlight, windows, flames or other sources of heat or ignition.

Disposal: Do not puncture or incinerate!

If empty: Place in trash or offer for recycling if available.

If partly filled: Call your local solid waste agency for disposal instructions.

Be sure to read all Directions, Precautionary and First Aid Statements on product labels before use of this or any Spartan product. If questions remain, consult your employer or a physician. Material Safety Data Sheets for all Spartan products are available from your authorized Spartan distributor or by visiting www.spartanchemical.com.

 Maumee, OH 43537
 1-800-537-8990
 www.spartanchemical.com

SCENTED:

CR-2 Roach & Ant Killer contains pleasing cherry scent; no objectionable insecticide odor.

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not use in commercial food/feed handling establishments, restaurants or other areas where food is commercially prepared or processed. Remove protective cap, hold container upright and direct spray away from face. Hold can 12-15 inches from surface being sprayed. Press valve down and spray as directed. Spray surface until slightly wet (at a rate of 4 ounces product to treat approximately 25 square feet of surface area).

INDOORS:

cockroaches (including adult and immature stages of both non-resistant and organophosphate and carbamate resistant strains), ants, booklice, boxelder bugs, centipedes, crickets, dermestids, firebrats, fleas, palmetto bugs, silverfish, sowbugs, ticks and waterbugs:
 Apply thoroughly to all areas where these pests crawl and hide, especially in cracks and crevices, and hidden areas around sinks and storage areas, behind baseboards, around doors and windows, behind and under refrigerators, cabinets, sinks and stoves, the underside of shelves, drawers, bookcases, and similar areas. When pests are driven out, spray directly. Repeat as necessary.

ANTS:

Spray freely around ant trails, doors and

windows and other places where ants enter premises. Spray around nests hidden under steps, brickwork, concrete, etc. Break apart accessible nests and spray freely on and around debris. Repeat as necessary.

BROWN DOG TICKS and FLEAS in BUILDINGS:

Apply in infested areas such as pet beds and resting quarters; nearby cracks and crevices; under the edges of rugs and floor coverings, between and under cushions of upholstered furniture and other areas where these pests may be present. Old bedding of pets should be removed and replaced with clean, fresh bedding after treatment of pet areas. Do not use directly on pets.

SPIDERS:

Apply along and behind baseboards, to window and door frames, corners, pipes, storage localities, attics, crawlspaces and other areas over which these pests may crawl.

CENTIPEDES, EARWIGS, GROUND BEETLES, MILLIPEDES, MOLE CRICKETS, PILLBUGS, SOWBUGS, SCORPIONS and TICKS:

Apply around doors and windows and other places where these pests may enter premises. Treat baseboards, storage areas and other locations where these pests are found.

CARPET BEETLES (BLACK, FURNITURE AND VARIED):

Spray on and under edges of floor coverings, under rugs and furniture and in closets or other localities where these insects are found.

ACTIVE INGREDIENTS:

*Tetramethrin	0.10%
**Permethrin	0.25%
***Piperonyl Butoxide, Technical	0.50%
†INERT INGREDIENTS:	99.15%
TOTAL	100.00%

*1-cyclohexene-1,2-dicarboximidomethyl 2,2-dimethyl- 3-(2-methylpropenyl) cyclopropanecarboxylate.

** (3-phenoxyphenyl) methyl (±) cis/trans 3-(2,2-dichloroethenyl) 2,2-dimethyl cyclopropanecarboxylate.

Cis/trans ratio: min. 35% (±) cis and max. 65% (±) trans.

*** Equivalent to min. 0.4% (butylcarbityl) (6-propyl-piperonyl) ether and 0.1% related compounds.

†Contains Petroleum Distillates.
