

HDI Snow and Ice Melt

TITAN

- **Overview:** Economical, fast-acting, magnesium chloride-free ice melter with a patented bio-based accelerator.
- **Performance:** Outperforms 30% calcium chloride blend; melts 8.35 mL of ice vs. 6.00 mL for salt (15°F, 20 min).
- **Controlled Spreading:** Optimized particle size, anti-caking agent, reduced dust, and cost-efficient.
- **Safety:** Safe for concrete and vegetation; environmentally friendly.
- **Specs:** Effective at -5°F (-21°C), blue in color
- 50-lb bag, 50 bags/skid

Peladow/Astro Thaw

- Calcium Chloride Pellets
- Effective at the lowest temperature (-25°F/-32°C).
- Generates heat during brine formation for superior melting.
- Round shape enhances ice penetration, melting up to 3x faster than flat or crystal-shaped products.
- 50-lb bag, 50 bags/skid

Concept "915"

- Safely removes ice melt residue on hard floors & carpets
- Suspends the salt & chloride residues in the mop solution
- May be used in carpet extractors

Shaker Spreader

- Adjustable output to dispense desired amount
- Polypropylene construction resists corrosion
