

# HARD SURFACE DISINFECTING WIPES

## NABC®, Fresh, and Lemon scents

Cross-contamination of hard surfaces happens anywhere people work and play. Assisted living facilities and nursing homes, doctors' offices, daycare centers, grocery stores, and fitness centers are just a few of the locations where viruses, bacteria, and disease can be spread from one hard surface to another. Reducing the spread of germs must be part of a daily routine. The solution: wipe it away!
