

Stokolan® Classic

Enriched Skin Conditioning Cream

PRODUCT DESCRIPTION

Enriched skin conditioning cream with high levels of moisturizers to soothe and care for dry to very dry skin. Lightly fragranced.

WHERE TO USE

For use in industrial and healthcare environments, especially where employees are prone to dry or stressed skin.

INSTRUCTIONS FOR USE

- Apply 1mL to clean and dry skin prior to extended breaks and at the end of the working day
- Rub on all areas of the hands, including between the fingers and around the fingernails
- Can also be used on the face

After-work skin care creams help to maintain the skin in good condition keeping it strong and healthy, avoiding dryness. Using care creams is an important element in skin care best practice.

Application - Dry to very dry skin

FORMAT: CREAM

FEATURES	BENEFITS
Enriched Skin Conditioning Formula	Hydrates and nourishes to help recondition work stressed skin.
Restores Skin Barrier	Clinically proven to support restoration of the skin barrier function when used regularly.
Contains Pharmaceutical-Grade Lanolin	An emollient known for its excellent care and skin nourishing properties. Included to help restore natural oils to condition dry and rough skin.
Rich in Moisturizers	High levels of Glycerin and Urea enhance the water holding capacity of the skin's upper layers, supporting the skin's own moisture system and helps improve skin elasticity.
ECARF Certified¹	This product meets the European Centre for Allergy Research Foundation (ECARF) criteria for being well tolerated by sensitive skin. www.ecarf-siegel.org/en/about-seal
Silicone-Free	The product will have no adverse effect if in contact with surfaces prior to the application of paint or surface coatings.
Compatible With Rubber Production Processes	Independently tested at the German Institute of Rubber Technology (DIK) and proven to have no negative effect on the vulcanization process.
USDA BioPreferred Certified²	This product is USDA Certified Biobased and contains 59% USDA certified biobased content. For more information, visit www.biopreferred.gov
Compatible with Alcohol-Based Hand Sanitizers	Can be used in hygiene sensitive areas where hand sanitizing procedures are necessary.

Stokolan® Classic

Enriched Skin Conditioning Cream

This product is USDA Certified Biobased and contains 59% USDA certified biobased content. The USDA BioPreferred Program® is a voluntary initiative to provide assurance that product contains a certified amount of biobased ingredients are third-party tested and verified and monitored by the USDA. The USDA Certified Biobased Product label is a certification mark of the U.S. Department of Agriculture. For more information, visit www.biopreferred.gov

QUALITY ASSURANCE

SC Johnson Professional products are manufactured in facilities which follow cosmetic Good Manufacturing Practice (cGMP) requirements.

All raw materials used for production undergo a thorough quality control process before being used for manufacturing in SC Johnson Professional's high quality products.

All finished goods are subject to intensive quality testing before being shipped out to our customers

COMPATIBILITY TESTS

Rubber Production Process Compatibility

In testing conducted by the Deutsches Institut für Kautschuktechnologie (DIK) in accordance with EN ISO/IEC 17025, the use of Stokolan® Classic in rubber production process does not influence the cohesive strength of rubber.

Sanitizer Compatibility Test

The compatibility of Stokolan® Classic with alcohol-based hand sanitizers was tested using a modified EN13727 test protocol. Results show that Stokolan® Classic does not negatively affect the efficacy of alcohol based hand sanitizers against *Ps aeruginosa*, *E coli*, *S aureus* and *E hirae*.

PRODUCT SAFETY ASSURANCE

Skin Compatibility Test

Independent dermatological tests conducted to assess the skin compatibility of the product using voluntary test persons in occlusive, 69 consecutive hour application models, shows the product to be non-irritating in use.

Toxicological Approval

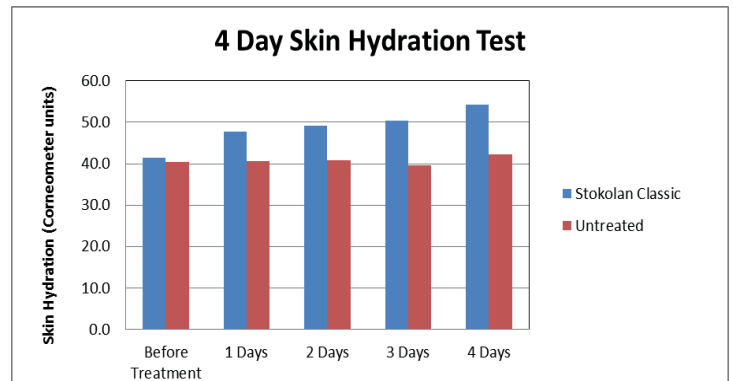

The product has been assessed by an independent toxicologist and has been declared to be safe for use on the hands, face and neck of adults aged 16 and above.

EFFICACY TESTS

Skin Hydration Test

The moisturizing properties of Stokolan® Classic were assessed via application of the product twice daily at an interval of approx. 5 hours to the forearm skin of healthy volunteers over a 4 day test period. The starting values for the skin moisture were determined in the morning by means of the Corneometer® and before the first application and then again on the morning of the subsequent day.

Results show that under repeated usage conditions, Stokolan® Classic provides a continuous increase in the hydration of the skin by 31.7% over untreated skin. This demonstrates that the skin moisture is clearly improved by Stokolan® Classic when used regularly.

Stokolan® Classic

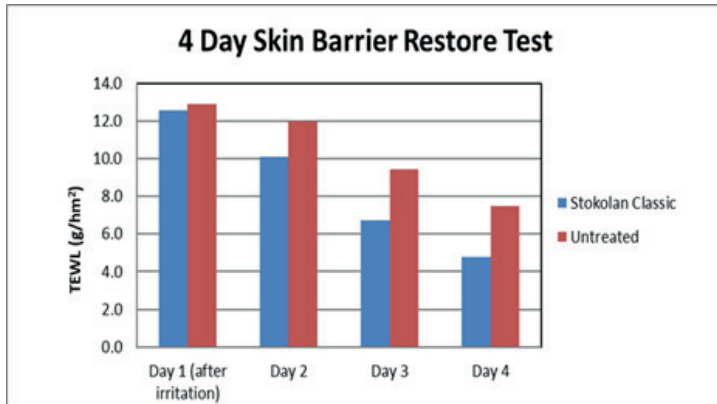

Enriched Skin Conditioning Cream

EFFICACY TESTS

Skin Barrier Restore Test

Skin barrier testing was performed on the forearm skin of healthy volunteers. Skin damage was induced by occlusive application of 0.5% sodium lauryl sulphate solution over a 12 hour period. The initial damage of the skin was classified by means of two parameters: a) visual inspection (irritation score according to Frosch and Kligman) and b) trans-epidermal water loss (TEWL as an indicator of the skin barrier quality). Stokolan® Classic was then applied twice daily at an interval of approx. 5-6 hours over a 4 day test period.

Results show that under repeated usage conditions, both the visually apparent damage and the barrier damage characterized by the TEWL is reduced compared to untreated skin. This demonstrates that when used regularly, Stokolan® Classic supports restoration of the skin's own natural barrier function.
