DIRECTIONS FOR USE

OPERATION

1. To actuate the pump, turn the handle away from the lock position. Then pull the handle up straight and completely. This will draw the chemical up into the unit. **Note:** The handle must be pulled up completely to dispense chemical.
2. After the handle has been pulled up completely, press down to discharge the proper dose of chemical.

CLEANING AND STORAGE

Clean out the dispenser periodically by submerging the cap into water and follow the steps listed above in the operation process. This will help clean the unit, to aid in accurate dosing and prevent cross-contamination of chemicals.
