Safety Data Sheet
Crystal Clear + Glass Cleaner

SECTION 1: Identification

1.1 Product identifier

Product name: Crystal Clear + Glass Cleaner

1.2 Other means of identification

Part Numbers: MCP301, MCP304, MCP305 and MCP355

1.3 Recommended use of the chemical and restrictions on use

To be used as a glass cleaner. For specific intended-use guidance, please refer to the information provided on the package or instruction sheet.
Restrictions on use: No uses advised against have been identified.

1.4 Supplier's details

Name: Horizon Distributors Inc
Address: 1890 W Chrysler Dr
Belvidere, IL 61008
USA

Phone: 815-547-3737
Email: sales@2hdi.com

1.5 Emergency phone number(s)

INFOTRAC 24/7 emergency line: 1-800-535-5053

SECTION 2: Hazard identification

2.1 Classification of the substance or mixture

GHS classification in accordance with: (US) OSHA (29 CFR 1910.1200)

Not a hazardous substance or mixture.

2.2 GHS label elements, including precautionary statements

None.

2.3 Hazards not otherwise classified (HNOC)

No additional information available.

SECTION 3: Composition/information on ingredients

3.1 Substances

Not applicable.

3.2 Mixtures

Component*	Concentration
Isopropanol (CAS no.: 67-63-0)	**1 – 3.5 % (weight)***

*Note: other components are not classified as hazardous under OSHA's Hazard Communication Standard (29 CFR 1910.1200), or are present below applicable disclosure thresholds.

SECTION 4: First-aid measures

4.1 Description of necessary first-aid measures

If inhaled	No first-aid measures are normally required. If breathing becomes difficult, remove victim to fresh air. Get medical attention if effects persist.
In case of skin contact	No first-aid measures are normally required. Get medical attention if irritation or rash develops or persists. Wash with plenty of soap and water.
In case of eye contact	Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If irritation persists, get medical attention.
If swallowed	Call a poison center or doctor if you feel unwell. If vomiting occurs naturally, have victim lean forward to reduce the risk of aspiration. Do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person.

4.2 Most important symptoms/effects, acute and delayed

The most important known symptoms and effects are described in the labelling (see section 2) and/or in section 11.

If inhaled	No adverse effects are normally expected.
In case of skin contact	No adverse effects are normally expected.
In case of eye contact	May cause mild eye irritation. Signs/symptoms may include redness, swelling, pain, tearing, and blurred or hazy vision.
If swallowed	Not expected to present a significant ingestion hazard under anticipated conditions of normal use. May cause gastrointestinal irritation. Signs/symptoms may include abdominal pain, stomach upset, nausea, vomiting and diarrhea.

4.3 Indication of immediate medical attention and special treatment needed, if necessary

Treat symptomatically.

SECTION 5: Fire-fighting measures

5.1 Suitable extinguishing media

Use extinguishing media appropriate for surrounding fire.
Unsuitable extinguishing media: No known restrictions.

5.2 Specific hazards arising from the chemical

No data available.

5.3 Special protective actions for fire-fighters
Wear self-contained breathing apparatus for firefighting if necessary. Fight fire from a safe distance or a protected location. Approach fire from upwind to avoid hazardous vapours or gases.

Further information
No data available.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures
Wear personal protection recommended in Section 8. Ensure adequate ventilation.

6.2 Environmental precautions
Discharge into the environment must be avoided.

6.3 Methods and materials for containment and cleaning up
Soak up with inert absorbent material and dispose in accordance with applicable Federal, State and local laws and regulations.

Reference to other sections
For disposal see section 13.

SECTION 7: Handling and storage

7.1 Precautions for safe handling
Handle in accordance with good industrial hygiene and safety practices. Ensure adequate ventilation. Avoid contact with eyes.

7.2 Conditions for safe storage, including any incompatibilities
Keep container tightly closed in a dry, cool and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage.

Specific end use(s)
Apart from the uses mentioned in section 1 no other specific uses are stipulated.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters
The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

Isopropanol (CAS no.: 67-63-0)
PEL-TWA: 400 ppm (980 mg/m³) (OSHA)
REL-TWA: 400 ppm (980 mg/m³) (NIOSH)
REL-STEL: 500 ppm (1225 mg/m³) (NIOSH)
TLV-TWA: 200 ppm (ACGIH)
TLV-STEL: 400 ppm (ACGIH)
PEL-TWA: 400 ppm (980 mg/m³) (Cal/OSHA)
PEL-STEL: 500 ppm (1225 mg/m³) (Cal/OSHA)

8.2 Appropriate engineering controls
Use ventilation adequate to keep exposures (airborne levels of dust, fume, vapor, gas, etc.) below recommended exposure limits.

8.3 Individual protection measures, such as personal protective equipment (PPE)

Pictograms

Eye/face protection
Safety glasses are recommended if eye exposure risk exists during product handling/processing.

Skin protection
Protective gloves, such as nitrile gloves, are recommended in case of prolonged/repeated exposure during product handling/processing.

Body protection
The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

Respiratory protection
Provide adequate ventilation. Respiratory protection is not required under normal use conditions. If engineering controls and ventilation are not sufficient to control exposure to below the allowable limits then an appropriate NIOSH/MSHA approved air-purifying respirator must be used.

Thermal hazards
No data available.

Environmental exposure controls
Do not release into the environment.

SECTION 9: Physical and chemical properties

Information on basic physical and chemical properties

Physical state	Liquid.
Appearance	Clear light blue liquid.
Color	Light blue.
Odor	Characteristic mild odor.
Odor threshold	No data available.
Melting point/freezing point	No data available.
Initial boiling point and boiling range	No data available.
Flammability	No data available.
Lower and upper explosion limit/flammability limit	No data available.
Flash point	No data available.
Auto-ignition temperature	No data available.
Decomposition temperature	No data available.
pH	No data available.
Kinematic viscosity	No data available.
Viscosity	No data available.
Solubility	Soluble in water.
Partition coefficient n-octanol/water (log value)	No data available.
Vapor pressure	No data available.
Relative density	No data available.
Relative vapor density	No data available.
Particle characteristics	Not applicable.

Other safety information
No further information available.

SECTION 10: Stability and reactivity

10.1 Reactivity
Non-reactive under normal use conditions.

10.2 Chemical stability
Stable under normal storage conditions.

10.3 Possibility of hazardous reactions, including those associated with foreseeable emergencies
No data available.

10.4 Conditions to avoid
Keep away from incompatible materials.

10.5 Incompatible materials
Strong oxidizers.

10.6 Hazardous decomposition products
Under normal conditions of storage and use, hazardous decomposition products should not be produced.

SECTION 11: Toxicological information

Information on toxicological effects

Likely Routes of Exposure: eye contact, skin contact, inhalation, and ingestion.

Delayed and immediate effects, including chronic effects from short- and long-term exposure

If inhaled	No adverse effects are normally expected.
In case of skin contact	No adverse effects are normally expected.
In case of eye contact	May cause mild eye irritation. Signs/symptoms may include redness, swelling, pain, tearing, and blurred or hazy vision.
If swallowed	Not expected to present a significant ingestion hazard under anticipated conditions of normal use. May cause gastrointestinal irritation. Signs/symptoms may include abdominal pain, stomach upset, nausea, vomiting and diarrhea.

Acute toxicity
Based on available data, classification criteria are not met

Components:

Isopropanol (CAS no.: 67-63-0)
LD50 (oral) – 5840 mg/kg
LD50 (skin) – 16.4 mL/kg
LC50 (inhalation) – >10000 ppm (6h)

Skin corrosion/irritation
Based on available data, classification criteria are not met

Serious eye damage/irritation
Based on available data, classification criteria are not met

Respiratory or skin sensitization
Based on available data, classification criteria are not met

Germ cell mutagenicity
Based on available data, classification criteria are not met

Carcinogenicity
IARC: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by IARC.
NTP: No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.
OSHA: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

Reproductive toxicity
Based on available data, classification criteria are not met

STOT-single exposure
Based on available data, classification criteria are not met

STOT-repeated exposure
Based on available data, classification criteria are not met

Aspiration hazard
Based on available data, classification criteria are not met

Interactive effects
No data available

SECTION 12: Ecological information

Toxicity
No data available on product.

Persistence and degradability
No data available on product.

Bioaccumulative potential
No data available on product.

Mobility in soil
No data available on product.

Results of PBT and vPvB assessment
PBT/vPvB assessment not available as chemical safety assessment not required/not conducted.

Other adverse effects
No data available on product.

SECTION 13: Disposal considerations

Disposal of the product
Disposal should be in accordance with applicable Federal, State and local laws and regulations. Local regulations may be more stringent than State or Federal requirements.

Disposal of contaminated packaging
Dispose of as unused product.

SECTION 14: Transport information

DOT (US)
Not dangerous goods

IMDG
Not dangerous goods

IATA
Not dangerous goods

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations specific for the product in question

SARA 302 Components
No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

SARA 311/312 Hazards
No SARA hazards.

SARA 313 Components
This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

HMIS Rating

HEALTH	0
FLAMMABILITY	0
PHYSICAL HAZARD	0

NFPA Rating

SECTION 16: Other information

16.1 Further information/disclaimer

Date of issue: October 23, 2026.

DISCLAIMER: The information above is believed to be accurate and represents the best information currently available to us. However, we make no warranty of merchantability or any other warranty, express or implied, with respect to such information, and we assume no liability resulting from its use. Users should make their own

investigation to determine the suitability of information for their particular purposes. All materials may present unknown hazards and should be used with caution. In no event shall we be held liable for any claims, losses, or damages of any third party or for lost profits or any special, indirect, incidental, consequential or exemplary damages, whatsoever arising, even if we have been advised of the possibility of such damages.
